

Registered Student Organization (RSO) Experience Survey

We are seeking the **UW Seattle undergraduate student** perspective on the tools that are currently available to search for **Registered Student Organizations (RSOs)** or clubs.

Thank you for participating in this survey, we greatly appreciate your time! This survey will take approximately 5-7 minutes to complete. All of your responses are anonymous unless you consent to be contacted for further information. **Please fill out this survey by Sunday October 13th at 11:59pm.**

This survey is for a project in INFO 360 Design Methods at the University of Washington [Information School](#). We are creating a solution prototype that makes it easier for students to navigate all of the on-campus RSOs and easily connect with RSOs that align with their values/interests.
